

NURSING PROGRAMS

Our Mission

The School of Nursing is dedicated to providing a rigorous Christ-centered education that develops and inspires highly skilled professionals who are prepared to serve diverse communities by promoting health and healing with excellence, integrity and compassion.

The Master of Science in Nursing (MSN) program, guided by Christian principles, builds on the baccalaureate nursing foundation to prepare advanced nurses as family nurse practitioners, adult-gerontology primary care nurse practitioners, and nurse educators, to meet professional standards and competencies.

The Doctor of Nursing Practice (DNP) program, guided by Christian principles, prepares leaders at the highest level of nursing practice to use the best evidence to advance the profession and positively influence health outcomes for diverse populations.
