

FINANCE MAJOR (A)

Students will use analytical reasoning to effectively problem solve and guide long-term planning. Graduates will be prepared to help businesses, organizations, and individuals plan and wisely allocate money, as well as other assets.

Program Learning Outcomes

By fulfilling all of the course requirements for the Bachelor's of Science in Finance, students will be able to:

1. Conduct financial analysis to assess the drivers of an organization's profitability and make recommendations to improve overall profitability or reduce risk.
2. Collect, organize, and analyze data to make allocation and investment decisions.
3. Make capital allocation recommendations to help institutions and individuals manage their resources and plan their operations using the various methods, instruments, and markets available.
4. Build an operating and financial plan for an institution or individual that includes financial projections.
5. Apply time value of money techniques to make capital allocation and project decisions.
6. Measure and properly analyze risk when comparing projects or other investment opportunities.
