

# DATA SCIENCE APPLIED ANALYTICS MAJOR (M)

---

This program will develop in students knowledge and skills needed to ethically manipulate and effectively analyze data, both large and small, revealing insights into problem domains.

In addition to the required courses for the major, students majoring in DSAA may select a concentration in Public Health, Environmental Issues, or Sports and Human Performance to learn context, vernacular, and key issues of a particular field. The concentrations will be noted as an "emphasis" on students' transcripts.

- Ethical approach to Data Analysis
- Selection and execution of stats software
- Discern algorithms and tools
- Application to problems
- Communication of solutions
