

# SOCIAL WORK (ACC)

## Mission

To prepare graduates for baccalaureate level, generalist, Social Work practice, within the context of faith, service and social justice.

The **context of faith** is important in the Department of Social Work. From a perspective of faith, we are able to draw energy and determination in teaching, and helping our students develop strong, competent Social Work skills that will provide a foundation for helping others. It reminds us (students and faculty) that our talents, abilities, and resources are all gifts from God that are to be used in the spirit of love, generosity, and forgiveness.

Our **faith-based** context also directs the manner in which we provide **service** to our clients. It means that Social Work students and faculty will utilize the expected professional practice knowledge and skills of the Social Work profession in their work with individuals, families, groups, communities, and governments. Our faith serves as a lens through which we see our Social Work education as a layer established upon Christian knowledge and values. It is a lens through which we see the world, our careers, vocation, and the special calling we have to reach out as Christian Social Workers to those who need help.

The idea of **possibility** relates both to our work as Social Workers and in our commitment to social justice. The concept of possibility reminds us that there are a myriad of opportunities in the Social Work profession. As students and faculty we have the chance to discern the best fit for our talents and skills. Likewise, in the **pursuit of social justice**, we help our clients reach for the possibilities in their lives, and as Social Workers we confront the barriers that might prevent our clients from reaching the possibilities that fit their skills and abilities.

## History of Social Work at Concordia University

Concordia University Wisconsin (CUW) was founded in 1881 as a school of the Lutheran Church-Missouri Synod (LCMS). Over the course of the next century, CUW moved from Trinity Lutheran Church in downtown Milwaukee, to property on 31<sup>st</sup> street, and finally to the former campus of the School Sisters of Notre Dame in Mequon, Wisconsin.

For approximately eight decades, Concordia offered high school and the first two years of a liberal arts college program providing "classical, technical, and religious instruction to young men and students who desire to prepare themselves for the ministry of the Lutheran Church." In the 1960's and early 1970's, a lay ministry program was incorporated in the curriculum along with co-educational programs for those interested in becoming teachers, deaconesses, or Social Workers in the Lutheran Church. In 1978, Concordia became a 4-year accredited college providing education in teacher education, nursing, medical assistant, Social Work, and engineering. It was at this time that the current Social Work Program began as a cooperative effort with the University of Wisconsin – Milwaukee.

After officially becoming a university on August 27, 1989, the decision was made to establish an independent Social Work program at CUW. On June 16, 1997, the Council on Social Work Education (CSWE) granted initial accreditation for a Bachelor of Social Work (BSW) program at CUW. The program has grown and remained fully accredited since that time.

The Social Work Program at Concordia University is housed within the School of Health Professions (SHP) and is designed for undergraduates,

leading to a Bachelor of Social Work Degree (BSW). There are currently four program areas including:

- A traditional BSW program on the Mequon (CUW) campus
- A traditional BSW program on the Ann Arbor (CUAA) campus
- An online accelerated BSW program
- An online Master of Social Work (MSW) program

## Accreditation

The Council on Social Work Education (CSWE) provides accreditation for Social Work programs at the bachelor and graduate level of education. Graduating from an accredited program is important for BSW students. An accredited program offers BSW graduates the opportunity to request *advanced standing* for an MSW degree in any University. The BSW program at CUW has been fully accredited by CSWE since 1997. As of September 12, 2022, the BSW accelerated program was approved by CSWE to become an online program.

## Social Work Values

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

## Generalist Practice

All Social Work programs educate students in Generalist Practice. Generalist practice provides students with a social work professional foundation knowledge base. Undergraduate students receive this knowledge base during the junior and senior year. Graduate students receive this knowledge base at a somewhat advanced level during the first year of their graduate program.

## Definition of Generalist Practice

Generalist Social Work practitioners work with individuals, families, groups, communities, and organizations in a variety of Social Work and host settings. Generalist practitioners view clients and client systems from a strengths perspective in order to recognize, support, and build upon the innate capabilities of all human beings. They use a professional problem solving process to engage, assess, broker services, advocate, counsel, educate, and organize with and on behalf of clients and client systems. Generalist practitioners engage in community and organizational development. Additionally, they evaluate service outcomes in order to improve the provision and quality of services most appropriate to client needs.

## Field Education

Students begin the field instruction sequence in the first semester of the senior year, and spend both fall and spring semesters of the senior year in one field placement. During both semesters, a student will spend an average of 14-16 hours per week at the placement agency, for a total of at least 400 clock hours of field instruction. Students make a commitment to remain with the agency for two semesters, until the end of the academic year. During the spring semester, traditional students must remain in their field placement until at least May 1<sup>st</sup>.

## Service Learning and IPE Hour Requirements

Social Work students will complete the Service Learning and IPE requirements:

- Twenty (20) hours of Service Learning activities
- Twenty (20) hours of IPE activities. *Eight (8) IPE hours will be completed junior and senior year with the mandatory case discussions.*

Service learning and IPE have multiple functions. 1) Provide unique experiences that prepare you for the field internship; 2) Provide experiences that build your résumé and strengthen your competitiveness for employment; 3) Increase confidence in your ability to be a Social Worker; 4) Fulfill the Christian mission of developing in mind, body and spirit for service to Christ in the church and the world.

## Service Learning

Service learning is an opportunity for students to become involved with the Social Work community through a social service organization, learning first-hand some of the ins and outs of Social Work practice. Service learning is required because it gives students an opportunity to interact with a professional agency and gain insight into the work that Social Workers do. This insight helps students narrow down the area of Social Work for an internship. Students may begin accumulating service-learning hours when they become a CUW freshman. They must complete the hours before beginning their senior year, and their internship. It is advised that students complete the service learning hours freshmen and sophomore years, so that they can work on completing IPE hours junior and senior years.

Service Learning activities can include a variety of volunteer activities geared towards students' interests. Students can volunteer with homeless shelters, food pantries, Habitat for Humanity, social service agencies and other organizations that help disadvantaged populations. Students may also participate in a mission trip through their church or through CUWAA, be a camp counselor, bible school teacher, tutor, or find another option not listed. Although many options exist for Service Learning activities, students should double check with the Department of Social Work if they are unsure an activity will count.

## Interprofessional Education (IPE)

Interprofessional Education (IPE) is essential for students preparing for careers in the health and social care fields, as well as healthcare administration. IPE gives Social Work students an opportunity to expand their education and learn how Social Workers interface with other health care professionals, including occupational therapists, physical therapists, physician's assistants, pharmacists, nurses and more. Students obtain IPE experience by attending mandatory case discussion events junior and senior years, and through other activities coordinated by the School of Health Professions.

## Program Requirements

Students must receive at least a "B-" in all social work courses, maintain at minimum of a 2.5 cumulative GPA overall and maintain a 2.75 cumulative GPA in all Social Work courses in order to continue in the social work program. A student may repeat a course one time in an effort to improve their grade.

## Social Work Program Goals

The goals of the CUW/CUAA Social Work Program are to:

1. Prepare students for professional generalist practice.
2. Prepare students who have developed the behaviors associated with the nine (9) competencies established by CSWE.
3. Encourage students to draw on the foundations of Christianity in faith, service, and social justice, and to provide leadership in the provision of service and solidarity for all persons, especially marginalized or oppressed groups.
4. Develop students with strong practice skills built on the knowledge base of the profession.
5. Support students in their understanding of and ability to apply the NASW Code of Ethics when practicing, and in their understanding of the relationship between the code of ethics and Christianity.
6. Prepare students who can apply research and/or evidence-based practice in practice settings, and in evaluating the effectiveness of practice and programs.
